You would feel safer if? 81 responses

I was at home

We had two sittings for breaktime like we do at lunch so that I'm not with so many people especially the big kids.

Fidget toys, hugging.

Do more lessons.

Stay away from dangerous stuff.

Lock the doors.

By having better eye sight so you can see what the other students are doing.

Being around my teachers.

If someone helped me a bit

If we had dongles for each person in school

I would feel safer if the teachers where stricter about things boys do to girls

My teachers

If there is not a lot of people out of control

we had more playtime toys

they did more lockdown drills as most people doesn't know what a lockdown is

I already feel safe

get to have a 1 to 1 every week to see how you feel

students didn't fight and no bullying

I could talk to a staff member.

no bullying

I could play with my friends.

more staff out at breaks

less gossiping amongst teachers and pupils

spending time with teachers, staff

I am ok in school

to be careful

the whole school coming together to fight Coronavirus.

foxes

I feel good

People were good

The climbing frame had safety barriers. It's too high.

More places to cool down when angry

Being able to express things better

If there were more teachers and kids.

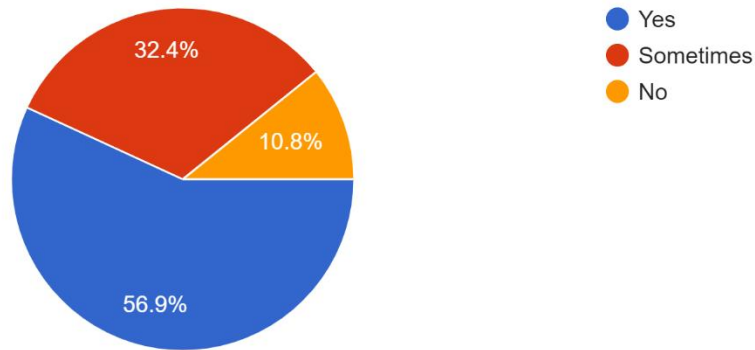

Safer places on the playground so I don't get hit by footballs.

I was alone
