

LABOUR MARKET INFORMATION FOR GLOUCESTERSHIRE

Information to help your child understand the importance of LMI.

What is Labour Market Information (LMI)?

Labour Market Information is data about the world of work and local opportunities. This includes appropriate careers, progression paths and the labour market (including awareness of 'the Local Offer') It also provides information on:

- The available jobs and voluntary opportunities both locally and nationally
- The pathways that lead to these jobs/opportunities (what qualifications and skills are required)
- The pay of a job and expected tasks
- The biggest employers / career sectors in your area

Why is LMI relevant for your child?

Accurate and up-to-date LMI can help your child make informed decisions not only about their future career and progression pathways but also:

- Inform their options and choices at ages 14-19+ (including supported internships and involvement with community settings and volunteering)
- Explore how they can add value to the community that they live in
- Understand education and training requirements for their chosen pathway

How can your child future-proof themselves to access opportunities moving forward?

- Engage in experiences to increase their employability and skills - such as experiences of the workplace, volunteering, part-time jobs, extra-curricular events and activities in the community
- Do their research and talk to others! Work out what their strengths and weaknesses are and what they like
- Engage in travel training and practice these skills in real-life journeys, with support as required

What resources and tools can be used to help understand and use LMI information?

Gloucestershire Your Futures

www.gloucestershire.yourfutures.uk
